Sarah draws on legal cases, cautionary tales and more to illustrate her talks. You'll learn how simplicity creates trust and avoids disputes. Digital contracts provide you and your clients with certainty of cost, process and outcome.

**Isn't it time your contracts were fit for the 21<sup>st</sup> century?**

Sarah will help you:

- ♥ Ensure your key concerns are included in every transaction
- ♥ Reduce the time and costs to get contracts agreed and signed

Frances Gordon, Simplified

After listening to Sarah, you will:

- ♥ Adopt a strategic approach to contracts rather than a knee-jerk response on a case-by-case basis
- ♥ Take control of and simplify the format and content of your contracts so they safeguard your business
- ♥ Side-step the pitfalls in contract processes and provisions

Sarah Fox is an international speaker and trainer with 25 years' experience in contracts, initially as a construction lawyer. She simplifies contracts that are bewilderingly complex, rarely read and unfit for purpose to create digital contracts in just 500 words (or so).

Sarah is your guide to change the way that your contracts are written, to make them simple, digital and trust-based. All without annoying your clients.

As you will learn, contracts need more than reams of paper, thousands of words or inky signatures.

*"Clarity events are normally of a very high quality but yours was one of the best & most impassioned I've heard"*

Sam Dunkley, Group Legal Adviser, Oil and Gas UK
